- Remote installation and software support.

EDUCATION HISTORY

Currently I'm deepening my coding skills with LocalHost Academy where I do projects in React/NodeJs.

- send–ether – PERN stack application for cryptocurrency exchange. Admin live site –> www.send–ether.space

KODILLA BOOTCAMP
Web Developer Bootcamp at Kodilla

- Music-Zapp – React App using Songsterr.com API
- Internet Shop – Bike Shop MERN Stack
- DrMentor – static website HTML/CSS/JS for mentoring business –> https://doctormentor.pl/

UNIVERSITY OF WARSAW
Undergraduate Programme in International Relations (English Course)
I worked on a thesis project that discussed the morality and usage of military drones in modern warfare. Also their applications in life or ordinary citizens.
